25X1*Office Memorandum* • UNITED STATES GOVERNMENT

TO : MEMORANDUM FOR THE RECORD

DATE: 1 August 1952

FROM : General Counsel

SUBJECT: Item for the Daily Log - 1 August (Friday)

Mr. Glade, Chief, Business Services, Atomic Energy Commission, called to discuss problems encountered in getting authorization, appropriations and permission to start a building in the D. C. area. He had heard that we were going through the same process and wondered (a) if we could help him from our experience, and (b) whether we would consider joining them in a community building. Their project is for a \$16,000,000 building completely secure and completely under their control. I told him that we had no current plans under consideration, that while there had been a great deal of discussion on the various possibilities we were not in a position to consider concrete propositions and felt that our experience would not be of much value to him inasmuch as it had not gone through to completion. Mr. Glade said this was satisfactory to him and thanked me for the information.
